

PRODUCING AND DESCRIBING PATHS

Start at point **O**. Your destination is the school, point **S**. Draw and describe two paths from your original location at home, point **O**, to the school. Move along either north-south or east-west lines. You should not take a path through either the apartment building or the supermarket.

101. Path one: _____

OR

Path two: _____

102. Length of path one: _____ spaces.
 Length of path two: _____ spaces.

103. If each space represents fifty feet, how long is each path?
 Answer:
 Path one: _____ feet.
 Path two: _____ feet.
