

- A number below a diagonal line shows the sum for the squares underneath.
- A number above a diagonal line shows the sum for the squares to the right.
- You may use only the digits 1 through 9 (one digit per square).
- You may not use any digit more than once to get a sum.

21.

/	11	15	/	/	10	16
7			/	17		
16			8	10		
14					6	7
/	12	3	10			
6				3		
11			/	4		

22.

/	9	6	/	/	12	10
4			/	17		
5			6	8		
10			7		10	7
/	3	9	14			
8				3		
8			/	6
