Lessons 1-7

Word Sounds

Lessons 1-3 teach children that words are made up of different sounds by teaching them to identify beginning and ending sounds in words. Not all letter sounds will be covered in these lessons, but they will be covered in later lessons. Lessons 4 and 5 teach children to identify words that rhyme. Lessons 6 and 7 provide children with all the sounds in a word and then ask them to identify the word from its parts.
