Continents and Countries

Ms. Liu ⁽¹⁾ _____ began the day's lesson by first giving her new group of third graders time to chat, and then by asking who could name the ⁽²⁾ _____ of the world. Eli raised his hand. "North America, South America, Europe, Africa, Asia, Australia/Oceania and Antarctica," he correctly replied.

"Good, Eli," Ms. Liu continued. "Now, I will pass out slips of paper, each with a name of one of the continents. Your assignment is to find a country that begins with the letter of your first name on that continent and be able to mark the location of your country on our world map." Ms. Liu had a dry-erase, wall-size world map in her room. "You all have the ⁽³⁾ _____ to use the Internet to find information," she continued. "So as another challenge, I would like you to find two facts about the country you choose."

Ms. Liu gave an example. She said, "If I chose Europe as my continent, I would have to find a country name that begins with "H" because Huan is my first name. So I might choose Hungary, a country in Central Europe." Ms. Liu walked to the map and pointed to Hungary. She then circled the country name. She continued, "One fact about Hungary is that the famous composer and pianist, Franz Liszt, came from Hungary. Another fact is that Hungary has often been ⁽⁴⁾ _____ in water polo at the Olympic games. They defeated many ⁽⁵⁾ _____ from other nations." After Ms. Liu's example, class ended and everyone was excited about doing his or her Internet research.

The next day, Kelly said she would begin. "Did I misunderstand?" asked Ms. Liu, "I thought Celine was going to start."

"Celine and I ⁽⁶⁾ _____," Kelly explained. Celine said if I went first, she would share her brownies from her lunch. So now I have the ⁽⁷⁾ _____ of being

first.” Kelly walked to the map, pointed to Korea in Eastern Asia and began. “Korea is a country in Asia that is divided into two different countries—North Korea and South Korea. I am an ice skater, so a fact I found interesting is that Kim Yu-Na is a South Korean figure skater who won an Olympic gold medal in 2010.” Kelly continued by showing the class a beautiful, ⁽⁸⁾ _____ fan painted with trees and mountains. “Another fact is that Korean art includes pottery, masks, paintings, and fans such as this one.”

Casey was next. “I chose Columbia on the continent of South America.” After pointing to Columbia and circling the country name, he said, “Columbia has areas with a lot of ⁽⁹⁾ _____ because of rain forests and a tropical climate. One fact is that animals such as jaguars, poison dart frogs, and many species of butterflies and birds might be found in the rain forest. One animal—the giant vampire bat—is now ⁽¹⁰⁾ _____. Another fact is that Columbia is on the equator, so there is a lot of heat and sun.” Casey concluded his presentation just as class was about to end.

“Kelly and Casey gave us interesting information on Korea and Columbia. Tomorrow we’ll continue learning about more countries,” said Ms. Liu.

D. The underlined part in each sentence is a synonym, phrase, or definition for a list word. Unscramble the list word and write the word on the blank.
