Which is more, 31% of \$60.00 or 60% of \$31.00?

A
31% of 60 is more

B
They are the same
✓

C
60% of 31 is more

Answer: **B**

You can use the associative property of multiplication: thirty-one percent is the same as $1/100 \times 31$, so $1/100 \times 31 \times 60$ is the same as $1/100 \times 60 \times 31$. You could also use the commutative property:
 $.31 \times 60 = .60 \times 31$.
