

CLASSIFYING BY SHAPE - SORTING

Example 1

Directions

Study the shapes on the six butterflies. Sort the butterflies with the shapes according to the number of sides each shape has. Drag each butterfly that correctly matches the number of sides into the container. To reset your answers, click on the container to release all of the butterflies.

SHAPES WITH THREE SIDES

OPPOSITES -
SELECT

FEEDER

Question 1/35

Directions 

Here are four verbs. Read the top verb and think about what it means. One of the bottom three verbs will mean the opposite of the top verb. To select your answer, click on the fish food feeder when it is directly above the verb that is the opposite of the top verb.

allow

deny

let

permit

RECOGNIZING DIRECTION - B

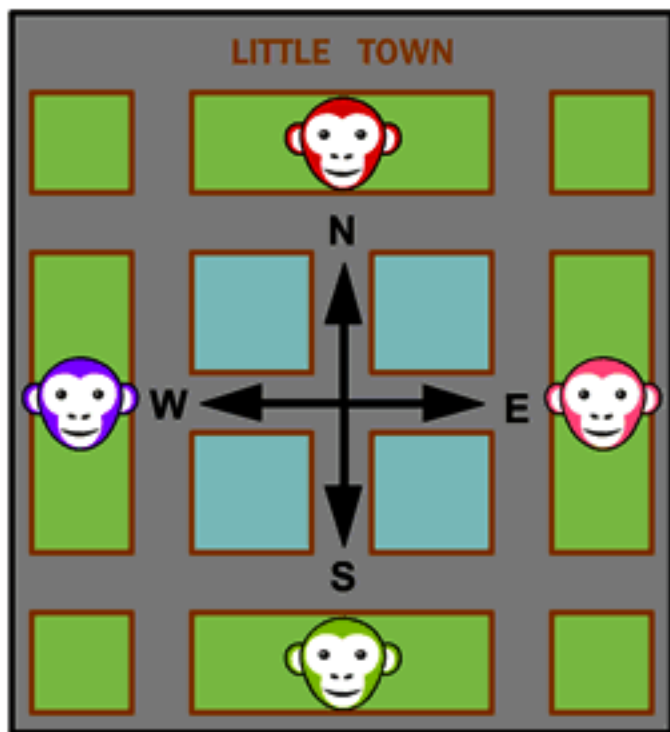

Directions

Imagine that you are standing in the circle on the map, facing either north(N), west(W), south(S), or east(E). By knowing the positions of two or more monkeys, determine the direction you are facing. Choose the appropriate direction arrow from the map and drag the missing monkey to the appropriate blank.

Example 3

DIRECTION

FACING M

M ON RIGHT

M ON LEFT

SIMILARITIES - SELECT

Question 20/47

Directions

Here are four adjectives. Read the top adjective and think about what it means. One of the bottom three adjectives will mean almost the same thing. Catch the adjective with the net that is most like the top adjective in meaning.

temporary

continuous

brief

permanent
